## **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and nine months ended July 31, 2020 and 2019

(Expressed in United States dollars, unless stated otherwise)

#### 1. NATURE AND CONTINUANCE OF OPERATIONS

Heatherdale Resources Ltd. (the "Company" or "Heatherdale") was incorporated under the laws of the Province of Alberta, Canada on November 6, 2007, and continued under the laws of the Province of British Columbia, Canada on November 16, 2009. The Company's corporate office is located at Suite 1800 – 555 Burrard Street, Vancouver, British Columbia. The Company is listed on the TSX Venture Exchange ("TSX-V") under the symbol "HTR".

These consolidated financial statements ("Financial Statements") comprise Heatherdale and its subsidiaries (together referred to as the "Group" and individually as "Group entities"). Heatherdale is the ultimate parent entity of the Group.

The Group's principal mineral property interest is its 100% owned Niblack copper-gold-zinc-silver project in southeast Alaska (the "Niblack Project"). The Group is in the process of exploring the Niblack Project and has yet to determine if the project contains economically recoverable mineral reserves. The Group's continuing operations and the underlying value of the Niblack Project are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Group to obtain the necessary financing to complete the exploration and development of the Niblack Project, obtaining the necessary permits to mine, future profitable production from any mine, and proceeds from the disposition of the project.

These Financial Statements have been prepared on a going concern basis, which contemplates the realization of assets and liabilities in the normal course of business for the foreseeable future. As of July 31, 2020, the Group had cash and cash equivalents of \$0.5 thousand, a working capital deficit of approximately \$0.5 million, and has accumulated significant losses since inception. In August 2020, the Company raised Cdn\$5.8 million to fund general working capital in the near term as well as further exploration and development programs at the Niblack Project. The Group is continually seeking opportunities for additional funding. There can be no assurance that the Group will obtain the required additional financial resources or achieve positive cash flows.

These Financial Statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Group be unable to continue as a going concern.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

## (a) Statement of Compliance

These Financial Statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations committee ("IFRIC"s). Accordingly, they do not include all of the information and footnotes required by International Financial Reporting Standards ("IFRS") for complete annual financial statements and should be read in conjunction with the Group's consolidated financial statements, as at and for the year ended October 31, 2019, which were filed under the Company's profile on SEDAR at <a href="www.sedar.com">www.sedar.com</a>. Results for the reporting period are not necessarily indicative of future results.

Accounting policies applied herein are the same as those applied in the Group's annual financial statements except for those discussed below in (c) below.

These condensed consolidated interim financial statements were approved by the Board of Directors on September 28, 2020.

## **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and nine months ended July 31, 2020 and 2019

(Expressed in United States dollars, unless stated otherwise)

## (b) Significant Accounting Estimates and Judgments

The critical judgments and estimates applied in the preparation of these Financial Statements are consistent with those applied in the Group's consolidated financial statements, as at and for the year ended October 31, 2019.

#### (c) Changes in Accounting Policy

The Company has adopted the following new IFRS accounting standard that was issued and effective for annual periods beginning on or after January 1, 2019 (Group's fiscal period starting November 1, 2019):

*IFRS 16, Leases ("IFRS 16")* 

IFRS 16, which replaces IAS 17, Leases, applies a control model to the identification of leases, distinguishing between a lease and a service contract based on whether the customer controls the asset. Control is considered to exist if the customer has the right to obtain substantially all of the economic benefits from the use of an identified asset and the right to direct the use of that asset. For those assets determined to meet the definition of a lease, IFRS 16 introduces a single, on-balance sheet accounting model requiring the recognition of right-of-use assets ("ROU assets") and lease liabilities for all leases, with limited exceptions for short-term leases (twelve months or less) or leases of low value assets.

IFRS 16 prescribes the accounting policies and disclosures applicable to leases, both for lessees and lessors.

The Group did not identify any agreement or contract that is or contains a lease and for which recognition under the standard would be required.

#### 3. EXPLORATION AND EVALUATION ASSETS

At July 31, 2020 and October 31, 2019, the carrying amounts of the Group's exploration and evaluation assets ("E&E assets") include the cost, less accumulated depreciation, of plant and equipment at the Niblack Project site.

During the nine months ended July 31, 2020 and 2019, there were no new acquisitions or disposals of E&E assets.

Depreciation charges on E&E assets for the three and nine months ended July 31, 2020, were \$2,503 (2019 – \$3,576) and \$7,508 (2019 – \$10,729) respectively and are included in exploration expenses in the statement of comprehensive loss.

#### 4. AMOUNTS RECEIVABLE AND OTHER PREPAID EXPENSES

	July 31	0	ctober 31
Falling due within one year	2020		2019
Sales tax receivable	\$ 5,701	\$	5,449

(Expressed in United States dollars, unless stated otherwise)

# 5. CASH AND CASH EQUIVALENTS AND RESTRICTED CASH

#### (a) Cash and Cash Equivalents

Cash and cash equivalents comprise cash in business and savings accounts held at major financial institutions, which are available on demand, by the Group.

#### (b) Restricted Cash

	July 31	C	october 31
	2020		2019
Comprises of:			
Cash collateral	\$ 704,960	\$	704,960
Income earned and re-invested	27,575		24,157
Total <sup>1</sup>	732,535		729,117
Cash deposit <sup>2</sup>	3,900		3,900
	\$ 736,435	\$	733,017

#### Notes:

- 1. The cash collateral is held with a United States ("US") financial institution, which has been pledged to the surety provider of the surety bond accepted by the Alaskan regulatory authorities. The cash collateral will be released once reclamation work has been performed and assessed by the Alaskan regulatory authorities. The cash is invested in a money market fund. Total income recognized and which has been re-invested for the three and nine months ended July 31, 2020, was \$27 (2019 \$3,502) and \$3,508 (2019–\$10,480) respectively.
- 2. The cash deposit is held with the Alaskan regulatory authorities as a performance guarantee for additional reclamation work to be performed by the Group.

## 6. SHARE CAPITAL AND RESERVES

#### (a) Authorized Share Capital

At July 31, 2020 and 2019, the authorized share capital consisted of an unlimited number of common shares without par value and an unlimited number of preferred shares with no par value. Only common shares have been issued and are outstanding. All issued shares are fully paid. In November 2019, the Company completed a five (5) for one (1) share consolidation of its common shares.

In June 2020, the Company completed the debt settlement with Sino-Canada Natural Resources Fund I ("Sino-Canada Fund") and issued 6,000,000 common shares of the Company to Sino-Canada Fund at a fair value of Cdn\$0.14 in settlement of the Cdn\$3,000,000 debt owing to Sino-Canada Fund (Note 7(b). In connection with the debt settlement, the Company cancelled a prior void issuance of 3,000,000 common shares of the Company to Sino-Canada Fund. The Company paid or accrued \$14,671 in fees related to the share issuance.

In July 2020, the Company issued 35,039,886 common shares of the Company at Cdn\$0.0975 per share pursuant to debt assignment and settlement agreement for the settlement of debt of Cdn\$3,416,290.15 (Note 9). The Company paid or accrued \$12,775 in fees related to the share issuance

## **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and nine months ended July 31, 2020 and 2019

(Expressed in United States dollars, unless stated otherwise)

# (b) Share Option Plan

Pursuant to a stock option plan (the "Plan") for directors, officers, employees and consultants, the Company may reserve a maximum of 10% of the issued and outstanding listed common shares, with the exercise price to be determined on the date of issuance. The terms of the option granted under the Plan may not exceed ten years and such options vest at terms to be determined by the board of directors at the time of grant, but the exercise price shall not be less than the price determined by the policies of the stock exchange on which the Company's common shares are then listed.

A summary of stock option activity for the nine months ended July 31, 2020 is as follows:

	Number of options outstanding	Weighted average exercise price
Balance November 1, 2018 and 2019	-	_
Granted	800,000	Cdn\$0.16
Balance July 31, 2020	800,000	Cdn\$0.16

As of July 31, 2020, the following stocks options were outstanding:

Expiry Date	Number of options outstanding	Number of options exercisable	Weighted average exercise price
June 16, 2025	500,000	-	Cdn\$0.16
June 30, 2025	300,000	-	Cdn\$0.17
	800,000	-	_

## (c) Deferred Share Units ("DSUs")

No DSUs have been issued since the DSU plan was adopted by the Group and approved by shareholders in April 2018.

## (d) Share Compensation Expense

During the nine months ended July 31, 2020, the Company granted 800,000 stock options that vest quarterly over 24 months from the date of grant. The fair value of the stock options granted was Cdn\$78,823 or Cdn\$0.10 per option was determined using the Black-Scholes option valuation model.

The following weighted-average assumptions were used in the Black-Scholes valuation of stock options granted during the period:

	2020
Risk free interest rate	0.33%
Expected life of Option	5 years
Annualized volatility	75.00%
Dividend rate	0.00
Forfeiture rate	0.00

## **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and nine months ended July 31, 2020 and 2019

(Expressed in United States dollars, unless stated otherwise)

## 7. CONVERTIBLE FINANCIAL INSTRUMENTS

#### (a) Convertible Loans Transferred to Related Party and Terms Amended

On November 29, 2018, the rights to two convertible loans and interest accrued to that date were transferred to HDSI, a related party, and the loans were amended such that they no longer bear interest nor are convertible into common shares (note 9).

Until the transfer and amendments discussed above, the convertible loans met the definition of derivative financial liabilities as no fixed number of common shares would be issued on conversion and the Group designated these hybrid financial instruments at FVTPL. The Group determined the fair value of the hybrid instruments using a combination of the discounted cash flow method and the Black-Scholes option pricing model as well as considering the probability of conversion by the Lender. To the date of modification, the Group recognized a loss on fair value on the convertible loans of \$3,905. For the First Loan, the following assumptions were used: Cdn\$0.03 valuation-date share price; 181% expected volatility; 2.16% risk-free interest rate; and 1.4 years remaining life. For the Second Loan, no value was estimated using Black Scholes for the conversion option. On modification the Group recorded a gain of \$5,892 on the derecognition of fair value as a result of reclassifying the loans to amortized cost and accordingly reclassifying \$143,538 to payables to related parties.

#### (b) Convertible Debenture

On December 31, 2016, the Group exercised its option to redeem a Cdn\$3,000,000 convertible debenture, which had matured (the "Debenture"), and pursuant to the terms of the debenture issued 15 million common shares at the conversion price of Cdn\$0.20 per common share (after the share consolidation equal to 3 million common shares). The Debenture was subscribed for and held by Sino-Canada Natural Resources Fund I ("Sino-Canada Fund").

On June 11, 2020, the Company completed a settlement agreement ("Settlement Agreement") with Sino-Canada Fund resolving outstanding issues with respect to the Debenture. Pursuant to the Settlement Agreement, the Company issued 6,000,000 common shares and cancelled the prior issuance of 3,000,000 common shares of the Company to Sino-Canada Fund. The Company recognized a loss on settlement of \$309,473.

#### 8. DERIVATIVE FINANCIAL LIABILITIES

The following summarizes share purchase warrants (each warrant redeemable for one common share) at the beginning and end of the period:

# **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and nine months ended July 31, 2020 and 2019

(Expressed in United States dollars, unless stated otherwise)

Continuity of share purchase warrants	Number of shares subject to warrants outstanding	Weighted average exercise price
Balance November 1, 2018	28,563,868	Cdn\$0.07
Expired	(10,000,000)	Cdn\$0.07
Balance January 31, 2019	(18,563,868)	Cdn\$0.07
Expired	(18,536,868)	Cdn\$0.07
Balance October 31, 2019 and July 31, 2020	<del>-</del>	_

Until their expiry, the warrants were classified as derivative financial liabilities ("DFLs") as they had a Canadian dollar exercise price, which is not the functional currency of the Group, and so did not meet the definition of an equity instrument. The DFLs were recognized at fair value, which was estimated using the Black-Scholes option pricing model, on date of issue and at the end of each reporting period with changes in fair value recognized in loss (income) for the period. At January 31, 2019, the fair value of the DFLs was estimated using the weighted average assumptions: risk free rate -1.76%; expected volatility -166.8%; expected life -0.14 years; share price -Cdn\$0.02 and dividend yield - nil.

The following tables reconcile the change in fair value of the DFLs for the period ended July 310, 2020 and 2019:

Continuity of fair value	Warrants - DFLs

## **Notes to the Condensed Consolidated Interim Financial Statements**

For the three and nine months ended July 31, 2020 and 2019

(Expressed in United States dollars, unless stated otherwise)

## (a) Transactions with Key Management Personnel

The aggregate value of transactions with key management personnel ("KMP") which includes directors (executive and non-executive), senior management, and advisors for the three and nine months ended July 31, 2020 and 2019, was as follows:

	Three months				Nine months

	\$	40,308	\$	18,364	\$	62,765	\$	45,841

#### Notes:

1. Certain HDSI personnel served as executive directors and officers for the Group.

#### (b) Hunter Dickinson Services Inc.

Hunter Dickinson Inc. ("HDI") and its wholly-owned subsidiary HDSI are private companies established by a group of mining professionals.

As of July 31, 2020, one of the Group's directors, Robert Dickinson, is a principal of HDSI. In addition, the Group's other director, Lena Brommeland, the Chief Financial Officer and Corporate Secretary are employees of HDSI and worked for the Company under an employee secondment arrangement between the Company and HDSI.

Pursuant to a management agreement between the Group and HDSI, HDSI provided technical, geological, corporate communications, regulatory compliance, and administrative and management services to the Company, on an as-needed and as-requested basis from the Company. As a result of this relationship, the Group had ready access to a range of diverse and specialized expertise on a regular basis, without having to engage or hire full-time experts. HDSI also incurred third-party costs on behalf of the Group which were reimbursed by the Group to HDSI at cost without any markup.

For the three and nine months ended July 31, 2020 and 2019, the value of transactions (rounded to the nearest thousand dollars) was as follows:

#### Transfer of Loans to HDSI

On November 29, 2018, the Group consented to the transfer of the rights under certain convertible loans (note 7(a)), including interest accrued to that date to HDSI, which in aggregate amounted to \$143,538. HDSI then amended the terms of the loans such that from the same date, the loans no longer bear interest and no longer have a conversion option. The Group determined that these loans should be accounted for at amortised cost and are included in the related party payable to HDSI.

#### Debt Assignment and Settlement

In June 2020, the Company completed a debt assignment and settlement with certain arm's length's parties (the "Purchasers") pursuant to the terms of a debt assignment and settlement agreement dated June 3, 2020, among the Company, HDSI and the Purchasers (the "Transaction").

Pursuant to the Transaction, Cdn\$4,025,367 owing to HDSI was assigned to the Purchasers and the Company issued 35,039,886 common shares to the Purchasers in settlement of Cdn\$3,416,390 of outstanding debt. A further Cdn\$608,977 was forgiven by the Purchasers, resulting in a gain on settlement of the debt and was included in comprehensive loss for the period.

#### 11. EMPLOYMENT COSTS

The amount of salaries and benefits included in expenses for the three and nine months ended July 31, 2020, was \$51,257 (2019 - \$45,129) and \$133,785 (2019 - \$129,145) respectively. Salaries include directors' fees payable and amounts payable to HDSI (see note 9(b)) for services provided to the Group by HDSI personnel.

#### 12. FINANCIAL RISK MANAGEMENT

The Group has exposure to credit risk, liquidity risk and market risk from its use of financial instruments. During the period ended July 31, 2020, there were no changes in the Group's objectives, policies, and processes for measuring and managing risk, and the Group's management of capital.

Fair Value

The fair value of the Group's financial assets and liabilities approximate their carrying values.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. Fair value measurements, which are determined by using valuation techniques, are classified in their entirety as either Level 2 or Level 3 based on the lowest level input that is significant to the measurement.

The fair value measurement of the convertible loans prior to the amendments (note 7(a)) and the derivative financial liabilities (note 8) until their expiry were categorized within Level 2 of the hierarchy. Both were exposed to market risk as they employed the quoted market price of the Company's common shares and foreign exchange rates.

#### 13. SUBSEQUENT EVENTS

(a) Consolidation of Share Capital

On August 31, 2020, the Group completed a five (5) for one (1) share consolidation of its common shares.
